Risk assessment Policy

All Saints Nursery School

Risk assessments are carried out to ensure the safety of children, staff, parents and visitors. Legislation requires all individuals in the workplace to be responsible for the health and safety of premises, equipment and working practices. We have a 'corporate responsibility' towards a 'duty of care' for those who work in and receive a service from our provision. Individuals also have responsibility for ensuring their own and others safety.

Induction given to new staff, students and work experience.

- A risk assessment form is completed for each area of work, and the areas of the building that are identified in these procedures
- Access audit is completed to ensure inclusion and the health and safety of all visitors, staff, and children. The relevant procedure is modified if required to match the assessment.

Risk assessment means: *Taking note of aspects of your workplace and activities that that could cause harm, either to yourself or to others, and deciding what needs to be done to prevent that harm, making sure this is adhered to and is updated when necessary.*

The law does not require that all risk be eliminated, but that 'reasonable precaution' is taken. This is particularly important when balancing the need for children to be able to take appropriate risks through physically challenging play. Children need the opportunity to work out what is not safe and what they should do when faced with a risk.

Daily safety sweeps and checks indoors and outdoors

- Safety sweeps are conducted when setting up for the day prior to children arriving or closing in the evening. Check sheets signed will sometimes identify a risk that requires a formal risk assessment on form. Staff are involved in reviewing procedures to ensure measures are effective.

Health and safety risk assessments

Health and safety risk assessments inform procedures.

The setting manager and deputy undertakes training and ensures staff have adequate training in health and safety matters. The setting manager and deputy also ensures that checks/work to premises are carried out and records are kept.

- Gas safety by a Gas Safe registered gas/heating engineer.
- Electricity safety by a qualified electrician.
- Fire precautions to check that all fire-fighting equipment and alarms are in working order.
- Deep clean is carried out in kitchen.

The setting manager ensures that staff members carry out risk assessments that include relevant aspects of fire safety, food safety, in each of the following areas of the premises:

- Entrance and exits. Lobby
- Outdoor areas.
- Group rooms.
- Main kitchen.
- Staff/parent's room/ cabin.

The setting manager ensures staff members carry out risk assessment for off-site activities, such as children's outings (including use of public transport), including:

- Visiting Churchyard, Field, Vicarage garden, forest school and beach school
- home visits
- other duties off-site such as attending meetings, banking etc

The setting manager ensures staff members carry out risk assessment for work practice including:

- The intimate care of young children and older children – changing nappies and clothes.
- arrivals and departures
- preparation of food/drink
- children with allergies and special dietary needs or preferences
- cooking activities with children
- supervising outdoor play and indoor/outdoor climbing equipment
- assessment, use and storage of equipment for disabled children
- visitors to the setting who are bringing equipment or animals as part of children's learning experiences, for example 'fire engines'
- following any incidents involving threats against staff or volunteers
- following any accident or incident involving staff or children

The setting manager liaises with Crime Prevention Officers as appropriate to ensure security arrangements for premises and personnel are appropriate.
